

Dear Parents/Carers,

Welcome back to virtual learning, we hope you had a lovely Easter break!

It has been fantastic to have so many of you working hard with us to keep your children occupied, happy and set on their learning journeys - we really couldn't hope to do so well without your amazing support.

We will continue to provide an exciting curriculum to work through at home for as long as this unhappy circumstance is placed upon us. Together we can make this amazing - please do not hesitate to get in touch if there's anything we can do to help.

Mrs Hackett, Mrs Cottigham, Miss Jewkes and Mrs Sanderson

## OUR DRIVING QUESTION:

## How can we, as advertisers, persuade someone to buy our chocolate bar?

**AS WRITERS** we will be exploring the book Charlie and the Chocolate Factory by Roald Dahl. We will write recipes, create our own character and create persuasive advertisements.

**AS SCIENTISTS** we will be learning all about states of matter. We will discover what the particles in solids, liquid and gas states look like and how they behave. We will also find out how the states can be changed.

**AS GEOGRAPHERS** we will be learning all about the natural resources that are available to us and why we need to look after them.

**AS COMPUTER SCIENTISTS** we will learn about advertisements and how we can create our own campaign to advertise our chocolate bar. We will finish the term by presenting our advertisement campaign, Dragon's Den style.

**AS MATHEMATICIANS** we will be covering mass, volume and length before moving onto the area of shapes. We will finish off the term with some basic geometry.

**AS ATHLETES** we will be looking at the fundamental positions in gymnastics and how they can be incorporated into movements and routines. To mix it up, we will continue with fitness activities, games and yoga to keep us healthy.

**AS CITIZENS (PSHCE/RE)** we will be thinking about building positive relationships. In RE we will learn about Islam and look at the similarities and differences between religions looked at so far.

**AS DESIGNERS** we will be coming up with an amazing idea for a delicious chocolate bar. We will come up with a name, a recipe and actually try and make our own chocolate bar. We will also design a wrapper for our chocolate bar.

### THINGS TO REMEMBER

- We are all in this together and we miss you!
- Maths and English tasks are set each day and tend to build lesson by lesson in each week.
- Please don't spend hours on each lesson, instead limiting it to between 30-40 minutes.
- Do try to keep up the 20 minutes reading daily, and to take AR Quizzes for each book you read!

**AS MUSICIANS** we will be building on the performance work we have done and will start to write our own songs. We'll start with the lyrics and move on to chords and melody.

**IN FRENCH** we will be using the following website to support the learning we have done so far. You can dip in and out of this site as the fancy takes you!
