

Dear Parents/Carers,

Welcome to the start of the Summer Term! We hope you have all had a lovely rest over the Easter break and have spent lots of time with your immediate family eating lots of Easter treats. It has been great to see all the children engaged with our online classroom Seesaw and we are loving all the amazing work and smiling faces in the pictures and videos that have been sent in. The quality of work that has been produced has been fantastic! We are so proud of every single child who is continuing to work hard. Well done and thank you parents for your amazing hard work and continued support.

Keep safe,
Miss Cornell, Miss Jackson and Miss Gorrod

OUR DRIVING QUESTION:

How important is the migration and life cycle of the butterfly?

AS WRITERS we will be reading a beautiful poetry book about nature called 'The Lost Words.' We will be writing poems and stories about butterflies.

AS MATHEMATICIANS we will be continuing our work with shape, moving on to 3D shapes, and then we will be starting to learn how to tell the time.

AS HUMANITARIANS we will be learning about the life cycle of different animals in nature with a focus on butterflies and their migration habits.

AS COMPUTER SCIENTISTS we will be exploring photography and learning how to take amazing photographs.

AS ARTISTS we will explore shade and tone, sketching pictures of wildlife found in nature.

AS SCIENTISTS we will be learning about animals and their habitats and also look into animal food chains.

AS CITIZENS (PSHE/RE) in RE, we will be learning about Hinduism and how they pray. In PSHE, we will be learning about our relationships with our families and friends.

AS MUSICIANS we will be working on our pitching and sense of melody as we learn to sing our nature based song "There's a hole at the bottom of the sea."

THINGS TO REMEMBER

If you have any queries or questions in regards to online learning please do get in touch with your child's class teacher.

AS SPORT STARS we will be adding some athletics to our virtual P.E lessons, from sprinting to throwing to various types of jumping. Mixing this all up with fitness, yoga and dance activities to keep us healthy and strong!

We are only too happy to help and no question is too silly.
