8th January 2021

Dear Parent/ Carer

## Data Allowances

As your child(ren) are now using the internet to access their education, you may find that the data allowance is used up more quickly than usual. The school can request support with internet access for children who:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing face-to-face disruption to their education.

Eligible students with access to a mobile phone on one of the following networks might be able to benefit from an increase in data allowance (Other providers may join the scheme at a later stage):

- Three
- Smarty
- Virgin Mobile
- EE
- Tesco Mobile
- Sky Mobile

These providers have said they will do this on a first come first served basis . If your child is eligible, please complete this form [Additional Mobile Data for Remote Learning](#) to ensure that we can make the appropriate arrangements by **Monday 11th January 4pm**.

Alternatively, the school can request a 4G wireless router for eligible students in the following circumstances:

- there is more than one child in the household who needs to learn remotely
- the mobile phone or tablet with internet access is not regularly available for the child's use
- frequent phone calls to the mobile phone being used tend to interrupt school work
- the child is likely to access the internet without supervision.

Please click here for the scheme's privacy notice:
