

16th January 2025

Dear Parents/Carers,

As part of our technology curriculum year 8 will be studying a rotation of all the practical subjects (Food, Design Tech, Computer Science). This term your son/ daughter is studying Food Technology. In order to support your child regarding the purchasing of ingredients for recipes, the school will purchase all ingredients needed for the term of cooking. This will make the overall cost far cheaper to you as we are able to buy in bulk.

For the current term of ingredients we have activated the payment section on Iris ParentMail to reflect the cost of ingredients. Therefore please could you pay the £18.00 balance which will cover the food and ingredients for the Year 7 cooks for the term. The deadline for this to be paid is **Monday 3rd February**.

Please ensure your son/ daughter has a suitable [storage container](#). I recommend the following which can be bought at most supermarkets, I know Asda for example do a very similar alternative. Please ensure these are labelled with the correct name. Please ensure they always have a carrier bag so they can carry the items.

Kind Regards

Miss T Board
