

Dear Parents/ Carers,

We continue to ride the waves of successes with our attendance streaks at Atlantic - the significantly improved attendance figures we have seen recently are a direct correlation to the engagement our students have in the scheme, but also represent the commitment you have shown us towards your child's education - Thank you!

As you will be aware, the initiative was dreamt up from our wonderful student voice, a fantastic example of leadership in our school. Following further discussions with our pupils it has been suggested that the students feel it's only fair to provide an opportunity for some of our students to be able to catch up - especially those who have only been absent on one occasion through unavoidable absences.

With this in mind we have an opportunity for an 'Attendance Super Boost' to take place next week. Any student who is **in school every day from Monday 30th June to Thursday 3rd July** will achieve a special 'super boost' and will join the leaders in our attendance streak league, meaning they will be back on target for our end of term awards. Please also remember that Friday 4th July is an INSET day and students are not expected to attend.

We won't however be forgetting about our original group of unbroken streak pupils - these children will be on track for a 'super special' additional award at the end of term.

We know this will come as welcome news to many and are sure this additional boost will demonstrate continued success of our attendance project.

Kind regards,

Miss M Heppell
Principal
