

28th April 2026

Dear Parents/Carers,

Year 2 - People Who Have Changed the World Day

After half term our new topic is 'People Who Have Changed the World'. We will be exploring a variety of different people from different backgrounds and countries, who have achieved something amazing in their life. From inventors to explorers, to pioneers and to activists - we will be researching them all!

As an exciting start to our topic we would like your child to come to school dressed as someone who 'has changed the world'. We are encouraging recycling of what you already have at home, so please don't feel you need to order a costume for your child. If you are not sure who to choose, you could choose from the following options:

- Florence Nightingale (nurse during the Crimean war)
- Alexander Graham Bell (inventor of the telephone)

Over the next few weeks, please take some time to research and decide on who your child would like to be (Make sure it is someone they are interested in as this will remain their project for the half term). Please ensure that your child comes into school knowing:

- Who are they dressed as?
- When were they born?
- What did their person do to change the world?

This day will take place on **Monday 1st June.**

Our project outcome for this topic will involve a question and answer session with our people who have changed the world which we will produce into a video and share on our facebook page.

Thank you for your continued support and have an enjoyable half term.

Yours faithfully

Miss J Cornell

Miss A Chant
